

AMBASSADE DE FRANCE EN COREE

May 23<sup>rd</sup>, 2019

Dear Madam/Sir,

We are pleased to inform you that the **Second Korean-French Meeting for Higher Education, Research and Innovation will be held in Paris**, at the Museum of Science and Industry, **on July 8-9, 2019**.

This meeting is mentioned both in the Franco-Korean Action plan on science and technology and the article 22 of the Joint statement adopted by both our Presidents during the State visit of President MOON Jae-in in France on October 16<sup>th</sup>, 2018. Its objective is **to strengthen the academic and the scientific collaboration between French and Korean stakeholders**. This event will bring together leading actors of higher education and research from France and Korea and provide many opportunities for presentations, discussions and interactions. It will give you the **opportunity to understand better the French academic, scientific, and innovative landscape, discover how better structure Korean-French cooperation and exchange ideas on how to jointly tackle key societal challenges**.

This second edition will be part of a bigger event, dedicated to research and innovation, which is welcoming around 400 participants from the best French higher education institutions and research centres. The program is designed to help participants **establish new contacts** and make this event a useful and enriching experience.

**It's our great pleasure to invite your institution to be part of this Korean-French event**. If you have any questions, please feel free to contact Ms Eunjeong YANG, Researcher in charge of American and European Affairs at the Office of global programs of the National research Foundation of Korea.

We look forward to hearing from you.

Sincerely yours,

**Jong-Deok KIM**  
Director  
Office of global programs  
National Research Foundation of Korea

**Jean-Christophe FLEURY**  
Counsellor for  
Cooperation and Cultural Action  
Embassy of France
